Finding the clinic

Central Auckland iTmedical clinics are all held at **Auckland Medical Specialists at 183 Gillies Avenue, Epsom**. There are no longer iTmedical, Enviromedix or any other occupational medicine clinics at the University of Auckland's Tamaki Campus since the cessation of Occupational Medicine Teaching at the University in 2007.

Medical Records Policy

All clinical records generated by iTmedical are stored electronically and retained indefinitely in accordance with Enviromedix policy. Paper files are used for current transactions and largely contain documents generated elsewhere. These are not necessarily retained by iTmedical for the long term.

Patients are entitled to have access to the contents of their files. Enviromedix recommends that reports generated in response to a referral are best obtained from the referrer. Requests for any copies from iTmedical must be made on the appropriate form or by letter or email. There is no charge for the first copy of documents generated in the practice.
