

Team appointments

He roopu Mahitahi

If several members of our team work with you and your child, a team appointment may be helpful to make a family centred plan.

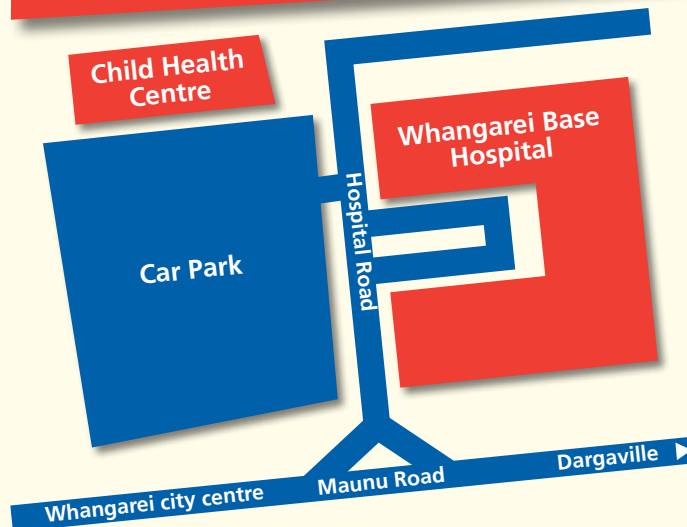

A team appointment can be arranged as part of the paediatric appointment. A team appointment will enable you to:

- Meet with the team as a group.
- Raise issues important to you, ask questions and plan.
- Invite people from other agencies who work with your child.

You can talk to any member of our team about this option.

Where are we
in Whangarei?
