Careway Integrated Care Pathways Musculoskeletal (ICPMSK) is an ACC funded programme that provides injured New Zealanders with better access to great healthcare services. You will receive the care you need, when you need it, at no cost to yourself.

-  **No co-payment** for physiotherapy treatments
-  Earlier diagnosis
-  **Faster time** to treatment
-  Easy access to healthcare services including surgery
-  **Quicker** recovery times

## Who can access Careway?

If you have approved ACC claim for a knee, shoulder or lumbar spine injury, your Careway specialist or physiotherapist will make an assessment to decide whether your injury is eligible for the programme.

## What services are provided?
