SPECIALIST directory

FOR ALL YOUR PATIENTS WITH HEALTH INSURANCE
We recognise that your patients have a choice with their healthcare and that, as a general practitioner, you play a crucial role in referring them to the right specialist and, in turn, the right hospital.

**What makes us the ‘right’ hospital?** Our excellent staff always strive to exceed your patients’ expectations for the short time they are in our care. We understand that everything matters and an optimal patient experience is imperative.

Perhaps our approach to customer service is one of the reasons over 180 of Auckland’s leading specialists choose to work with us. This booklet has been produced to help you quickly find the information you need to make a referral to any of them and, through the selected specialist, to our care.

If you have any questions about our services, please don’t hesitate to contact me directly or visit us at mercyascot.co.nz.

We hope the booklet will be of value to you and we look forward to extending a warm welcome to your patients.

On behalf of the MercyAscot team,

**Dr Geoff Sparkes**

**CHIEF EXECUTIVE OFFICER**
When referring a patient to specialist and hospital care, you want to be sure they’ll be in the safest hands possible. You want to know they’ll be cared for by dedicated, compassionate staff, in modern facilities, with exemplary post-operative management.

**Over 180 of Auckland’s leading specialists choose to practice at MercyAscot for good reason** – our outstanding patient care and customer service.

For the latest information about MercyAscot and our services visit [mercyascot.co.nz](http://mercyascot.co.nz)
Commitment to quality
To our mind investing in highly skilled staff and cutting-edge technology is fundamental to exceptional patient care. In fact, it’s this whole-hearted commitment to quality that continues to attract over 180 of Auckland’s leading medical specialists to our sites. Together we’re able to offer an extensive range of private surgical services. These services include:

+ Orthopaedics
+ General Surgery
  - Bariatric
  - Colorectal
  - Hepatobiliary
  - Gastric
  - Oesophageal
  - Pancreatic
+ Gynaecology
+ Cardiothoracic Surgery
+ Head and Neck Surgery
+ Ear, Nose & Throat/ORL
+ Vascular Surgery
+ Urology (including Brachytherapy)
+ Neurosurgery
+ Plastic and Reconstructive Surgery
+ Paediatrics
+ Dentomaxillary Surgery
+ Dental Surgery

A range of physicians also work at our sites, and the MercyAscot Endoscopy facilities at Epsom and Takapuna offer the complete range of diagnostic, complex therapeutic and palliative endoscopy procedures including: Gastroscopy, Colonoscopy, Bronchoscopy, ERCP, TOE and Haemorrhoid Banding.

Our high standards of service and healthcare have been recognised by the ongoing award of accreditation status by Quality Health New Zealand. We are committed to continuous improvement through ongoing recognition and rewards for quality initiatives from our staff, and a four-yearly quality audit of our services.

Single-minded approach to care
We believe that delivering the best care possible means leaving no stone unturned. Every one of our outstanding 600+ nursing team shares a steadfast commitment to the little things.

For instance, we know the idea of surgery can make your patients nervous, but knowing what to expect can make all the difference. On our website your patients can view our ‘Patient Experience’ video and read comprehensive patient information. They are also welcome to get in touch with us at any time with questions they might have.
Supporting the complex

Some of your patients will need complex clinical care. Our highly-skilled staff operate an Intensive Care Unit, High Dependency Unit and a Cardiac Investigation Unit at our Epsom facility, Mercy Hospital, while at our Greenlane facility, Ascot Hospital, we operate a High Dependency Unit.

Our nurses work alongside specialists, physiotherapists, dietitians, pharmacists, speech and language therapists and on-site medical practitioners to provide superior post-operative care. Together they speed your patients’ recovery, returning them to your care as soon as possible.

A values-led organisation

There’s no doubt our three state-of-the art facilities unite to create a second-to-none hospital group in Auckland. But it’s the people within the walls that elevate MercyAscot to the exceptional. All of our 600+ staff put our values into practice every day.

We are all adaptable and accountable. We value effective communication and great customer service.

Every day we challenge ourselves to make a positive difference to our patients, to our specialists and to each other. It’s the MercyAscot ‘x factor’ and it makes a big difference.

Continuing professional development for General Practitioners

We’re extremely proud to be active supporters of general practice through our sponsorship of the Goodfellow Symposium – now in its 12th year, and our work with specialists to provide the ongoing MercyAscot Education (CME) Sessions.

The Goodfellow Symposium is designed to meet all General Practitioners’ educational requirements in one setting.

Our programme of CME sessions provides General Practitioners with clinically relevant and practical education, harnessing the expertise and interests of the specialists working with us.

For further detail about the MercyAscot Education Series visit mercyascot.co.nz
The specialists who work with us are listed on the following pages. You can find an alphabetical index at the back and the most up-to-date listings at mercyascot.co.nz
