*You can also contact your local pharmacy as many have
equipment to purchase or rent.*

Funding

Funding for some equipment is available following Occupational Therapy assessment if it is essential and meets funding criteria.

It is acknowledged that some individuals do not meet Ministry of Disabled People's funding criteria but still want equipment or prefer an alternative to the standard stock we can provide. Others may be on a waiting list and prefer to self-purchase rather than wait. We have therefore put this list of equipment suppliers together to assist this process.

Please note that retrospective funding is unavailable for any equipment or rental you have paid for privately.

The retailers and suppliers listed are a selection of the options available and not a comprehensive list. Health New Zealand – Te Toka Tumai Auckland do not recommend or endorse one supplier over another and are not liable for the quality of their service or products.
